

Blank Vinyl's

Colour	Size	Price's From	Optimum run-time per side
Black	7"	£8.00	4 minutes 30 seconds
Black	10"	£11.00	6 minutes 30 seconds
Black	12"	£12.00	9 minutes 30 seconds
Clear/Transparent	7"	£8.50	4 minutes 30 seconds
Clear/Transparent	10"	£11.50	6 minutes 30 seconds
Clear/Transparent	12"	£12.50	9 minutes 30 seconds
White & Translucent Red	7"	£9.00	4 minutes 30 seconds
White & Translucent Red	10"	£12.50	6 minutes 30 seconds
White & Translucent Red	12"	£13.50	9 minutes 30 seconds

- Price is per disk with 2 sides **(A/B)**
- If the runtime of a submitted track exceeds the stated limit, an additional fee of **£0.50** per side will be applied for every 30 seconds of audio over the limit. Alternatively, a fade-out can be applied to bring the track within the recommended optimal runtime.
- If you require only one side to be cut, please deduct **(-£2.50)** from the listed vinyl size price.
- If you want 2 tracks per side, **(12" Only)** there will be an additional fee of **£5** per track, per side
- Above come with No centre labels
- Above come housed with inner antistatic paper sleeves

- Price is per sleeve / per PVC wallet
- All above comes with inner antistatic sleeve to protect the life span of the vinyl
- Please note that some wholesalers only supply PVC with an “orange peel” textured finish. Wherever possible, we aim to source fully transparent PVC for optimal clarity.

Optional Add-ons

Item	Description	Price
De-burring edges	<p><i>Lathe-cut blank records often come with straight edges that can feel a little rough to the touch. To give them a smoother, more refined finish, similar to pressed record, we carefully round the edges using a de-burring tool.</i></p> <p><i>Note: Colour vinyls include de-burring as part of the price.</i></p>	£0.15 (For Both Sides)
Scribing the cat number on the run-out	<p><i>Add your catalogue number to the run-out groove for a professional touch. Similar to pressed records, we scribe your release's Cat Number or Matrix Code on the run-out, representing the release number from the record label.</i></p> <p><i>We always scribe the cutting engineer's name "Dapz" into the runout groove as a mark of authenticity and care.</i></p>	£0.10 (For Both Sides)
A5 promo sheets	<p>If you're planning a white label release, including a promo sheet inside the sleeve can really elevate the presentation. It adds a thoughtful touch for the buyer, whether it's a logo, track details, a short blurb about the music, or even shout-outs. It's a simple addition that can make your release feel more personal and complete.</p>	£0.10 Per print as black & white £0.20 Per print as full colour

T&Cs & Policy's

Subject	Description
Test Cuts Policy	<p>For new customers, we strongly recommend ordering a test cut of your track(s) before committing to a full batch run. Test cuts are available at a discounted rate, 20% off the listed website price for a single cut, including any selected optional add-ons. Choosing a test cut allows you to review the audio quality, levels, and overall compatibility of your track with the lathe-cut format before larger quantities are produced. Please note that if you choose NOT to order a test cut and proceed directly with a batch run, any dissatisfaction with the final result does not qualify for refunds, replacements, or returns. This policy ensures clarity and fairness, as test cuts provide the opportunity to identify and resolve any issues prior to full production.</p>

<p>Sound Quality and Playback</p>	<p>We take great care to achieve the best possible sound quality test cut before moving on to the final batch run. However, since this is a vinyl format, playback can vary depending on your setup. Differences in turntables, age/usage of stylus types, and tracking weight may affect how certain frequencies are heard. Please ensure your stylus weight and tracking are correctly set for optimal playback. Lathe-cut grooves are shallower and less uniform than pressed records, so proper setup makes a noticeable difference.</p>
<p>Minimum Order amount</p>	<p>A minimum order of 10 copies applies; pricing may vary depending on the audio length and quantity ordered. A 10% surcharge applies to orders of 10 copies. Orders of more than 10 units qualify for the bulk rates listed in the pricelist. The surcharge is waived entirely for orders of 20 copies or more.</p>
<p>Maximum Order amount</p>	<p>To keep production running smoothly and maintain a healthy workflow, we cap each order at a maximum of 100 units. This limit applies to the combined total of all projects within a single order. If you place an order for 50 units and return a week or more later wanting another 50 (or more), that's absolutely fine, it simply depends on our current turnaround times and any deadlines we're already working to. We'll always be upfront about availability and will do our best to accommodate you. We're happy to discuss, adjust, and find a fair compromise wherever possible, as long as it keeps the schedule realistic for everyone involved.</p>
<p>Additional Copies & Re-Cuts</p>	<p>If you find yourself needing more copies due to strong demand, we'll provide you with a turnaround estimate. Since we're always working on new projects, we can't cut additional copies immediately, but we'll slot your request into the queue and give you a realistic timeframe for completion.</p>
<p>Centre Labels & Stickers</p>	<p>Please note that centre labels and sleeve stickers may have slight variances in colour compared to the original artwork, though this doesn't occur in all cases. A tolerance for minor imperfections should be expected.</p>
<p>Plausible Returns</p>	<p>If any copy is found to be unsatisfactory, or if a buyer raises a concern regarding a specific issue with their record, please note that we require the item to be returned to us for inspection. Should the reported issue be verified, we will be happy to provide a replacement.</p> <p>Eligible issues for replacement include, but are not limited to:</p> <ul style="list-style-type: none"> • Skips or jumps caused by kissing grooves • Excessive surface noise that overpower the audio on playback <p>Please be aware that each record is cut in real time. Unlike pressed records, where a single master stamper ensures identical copies, lathe-cut records are produced individually. Over extended production runs, the cutting lathe may behave differently and on rare occasions a blank disc may contain defects prior to audio being cut.</p> <p>We also want to highlight that overall loudness may be lower than a pressed record due to</p>

	<p>the technical limitations of the VR lathe system. We always aim for the highest cutting volume possible within safe and accurate cutting parameters, but variations in loudness are a normal characteristic of the format. For this reason, complaints relating solely to loudness are not eligible for replacement or refunds.</p> <p>Every record is cut with the utmost care and monitored throughout the process. However, due to the nature of real-time cutting, there may be rare instances where an issue is not immediately detectable and may slip through quality control.</p>
Postage & Packaging (UK)	Orders of 10 copies we use Royal Mail 24hr tracked, Orders over 10 copies we use DPD next day 24hr tracked as well as additional insurance to cover the value of your package.
Postage & Packaging (Overseas)	We will find the best prices for overseas postage and packaging for you. <i>POA*</i>
Postage Insurance Policy	<p>For customers placing large batch-run orders, we strongly recommend adding postage insurance for additional protection. This ensures your items are covered in the event of loss, theft, or damage during transit.</p> <p>Please note that we cannot be held responsible for any items that are lost, stolen, or damaged once they have been handed over to the postal or courier service. Choosing to add postage insurance is entirely at your discretion at the time of ordering.</p> <p>We are happy to discuss insurance options with you when reviewing your order and can provide a clear breakdown of the associated costs so you can make an informed decision.</p> <p>If postage insurance is declined, the shipment will be sent at the buyer's own risk, and no compensation or replacements can be offered for issues arising during transit.</p>
